# 2014 BioNanotechnology Summer Institute

**Cancer Nanotechnology and Cell Mechanics**

an NSF-IGERT and NIH-CNCTC collaboration

**July 28–August 8, 2014**

University of Illinois at Urbana-Champaign

---

**What:** Two weeks of lectures and hands-on training in engineering, biological, and physical science laboratory techniques covering topics such as cancer nanotechnology, cell mechanics, cell biology, molecular biology, lab-on-a-chip, and NanoBio devices

**Who:** Advanced undergraduates, graduate students, post-docs, and faculty from engineering, physical sciences, and biological sciences who are interested in state-of-the-art interdisciplinary research at the intersection of engineering and biology

**Lecturers:** From California Institute of Technology, Georgia Institute of Technology, Harvard University, Massachusetts Institute of Technology, Northwestern University, Stanford University, University of California Berkeley, University of California Merced, University of Illinois at Urbana-Champaign, University of Kentucky, and industry

**Cost:** $1,500/selected participant

**Includes:** Breakfast and lunch each weekday and dormitory housing from July 27-August 8. NOTE: Limited financial assistance may be available toward the registration fee. If you wish to attend and require financial help, please indicate your request on the application form.

**Deadline:** Applications must be received by midnight on **Friday, April 11, 2014**

**Website:** Find details and apply online at: [nano.illinois.edu/summer-institute-2014](http://nano.illinois.edu/summer-institute-2014)
