Two weeks of lectures and hands-on training in engineering and physical science laboratory techniques covering topics such as cancer nanotechnology, cell mechanics, molecular biology, lab-on-a-chip, and NanoBio devices

Advanced undergraduates, graduate students, post-docs, and faculty from engineering, physical sciences, and biological sciences who are interested in state-of-the-art interdisciplinary research at the intersection of engineering and biology

From California Institute of Technology, Georgia Institute of Technology, Harvard University, Massachusetts Institute of Technology, Northwestern University, Stanford University, University of California Berkeley, University of California Merced, University of Illinois at Urbana-Champaign, University of Kentucky

$1,500/selected participant

Breakfast and lunch each weekday and housing in a dorm room from July 26-August 8. NOTE: Limited financial assistance may be available toward the registration fee. If you wish to attend and require financial help, please indicate your request on the application form.

Applications must be received by Friday, April 17, 2015

Find details and apply online at: nano.illinois.edu/summer-institute-2015
